CUT OUT TEMPLATE

WIDTH 234mm

How to use this template

- 1) Remove the protective backing from the "low tack" adhesive tape on rear of this template.
- 2) Align centre line.
- 3) The outside profile is an accurate indication of the speaker box hole required.
- 4) Draw around the profile, remove template and cut hole.
- 5) The template can be repositioned a number of times if required.
